Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The closest prior art reference of record is the patent to Wilkinson et al. (6,308,317). However, Wilkinson teaches the mapping of strings; while, the applicant's mapped items are numeric (via his specifications on page 13 lines 5-12). This feature is further indicated via the modified claims which indicates that each kind of referenceable item in said package having its own independent scope of limited capacity for tokens of the corresponding token type; which is also not taught by Wilkinson. This feature is specified in each of the independent claims and therefore, the dependent claims are allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
